

Ubuntu i3 config

This repo is to help me keep track of the modifications made to ubuntu by me. I use the i3 window manager and neovim with the dotfiles as mentioned in dotfiles.

Installs

Some useful programs to be installed

```
ranger neovim zathura tree
```

General

Random tidbits I found important kept here

Generating a list of manually installed programs

```
comm -23 <(apt-mark showmanual | sort -u) <(gzip -dc /var/log/installer/initial  
-status.gz | sed -n 's/^Package: //p' | sort -u)
```
